

MY NAME IS
M.NAWAF AKBAR
I'AM A WEBSITE DEVELOPER

HELLO

I am Student at majoring Informatics Management based in Politeknik Negeri Padang. My prefer skills is graphic design and UI/UX. Creating works that are not only aesthetic but also functional and oriented to user experience. This ability is supported by mastery of programming such as **Laravel PHP, HTML, CSS, JavaScript, MySQL, Kotlin, and Flutter**, which strengthens my ability to realize design into a real digital solution. With a leadership spirit and organizational skills, I am used to working collaboratively, bringing innovation, and contributing to creating the best results at every opportunity.

MY CERTIFICATE

MY WORK

Awesome Projects

Gis Website.

Role: Project Leader

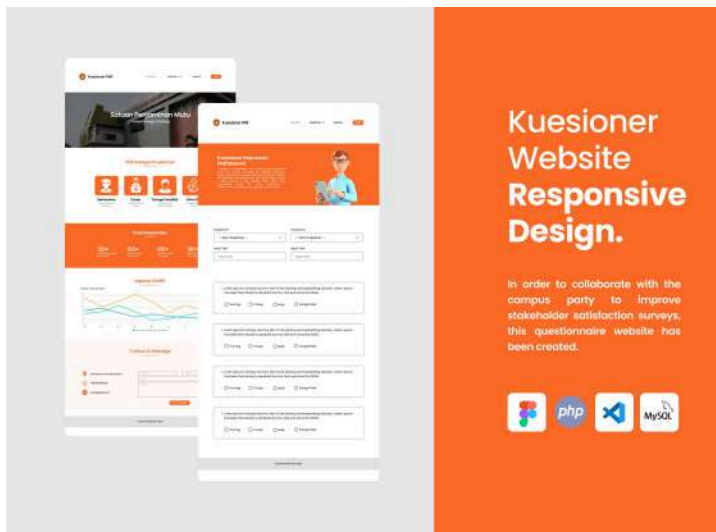

The project was developed using **PHP, HTML, CSS, and JavaScript**, with **Bootstrap** for responsive design and **MySQL** for database management. Completed in about one month, it focuses on clear visuals, accurate data, and real-time GIS-based insights.

Website Describe:

An interactive web platform for visualizing election data distribution using Geographic Information Systems, designed real-time spatial insights.

Tools:
VsCode, XAMPP

Questionnaire Website.

Role: Project Leader

The project was developed using **PHP, HTML, CSS, and JavaScript**, with **Bootstrap** for responsive design and **MySQL** for database management. Completed in about 2 month.

Website Describe:

A streamlined web application for creating and managing campus-related questionnaires, enabling efficient data collection, student participation, and result analysis.

Tools:
VsCode, XAMPP

MY WORK

Awesome Projects

School Website.

Role: Project Leader

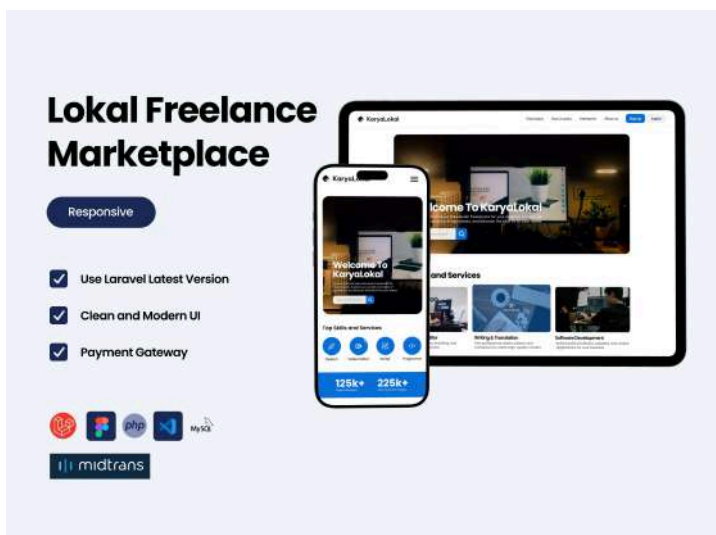

This project was built with the latest version of **Laravel**. The administrative dashboard uses **Filament**. **MySQL** handles structured school data, while **HTML**, **CSS**, and **JavaScript** ensure a responsive and user-friendly frontend across devices.

Website Describe:

This web-based school management system streamlines academic and administrative tasks, including student registration, staff management, class scheduling, grading, and attendance tracking.

Tools:
VsCode, XAMPP

Web Freelance Marketplace.

Role: Project Leader

This Project Using **Laravel**, **MySQL**, **HTML**, **CSS**, and **JavaScript** for development — ensuring a secure, scalable, and responsive web application. **Midtrans** for payment gateway.

Website Describe:

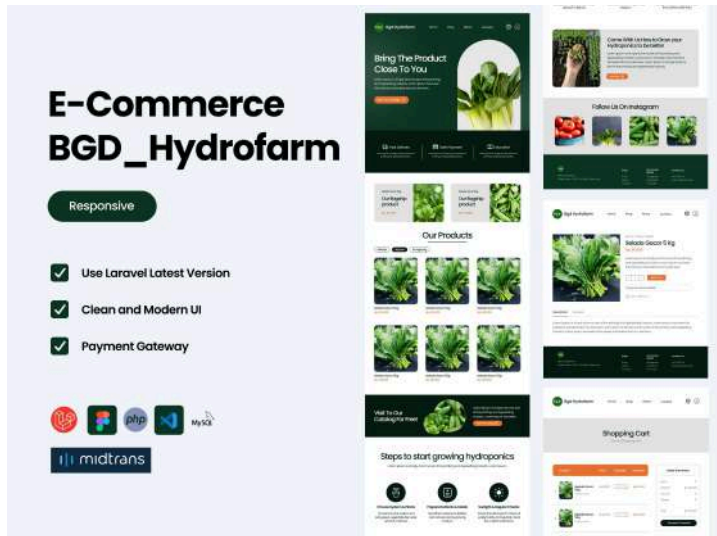

A local freelance marketplace that connects freelancers with clients, enabling project posting, profile management, and secure payments through Midtrans. Designed to simplify hiring and collaboration within the local community.

Tools:
VsCode, XAMPP

MY WORK

Awesome Projects

E-Commerce Web

Role: Project Leader

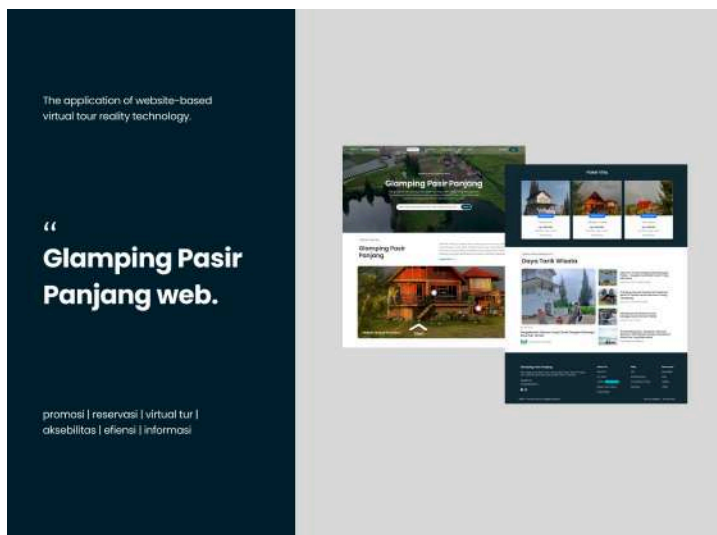

This Project Using **Laravel, MySQL, HTML, CSS, and JavaScript** for building a responsive, reliable, and user-friendly online shopping experience. **Midtrans** for payment.

Website Describe:

An e-commerce platform for BGD_Hydrofarm that sells fresh vegetables online, offering easy product browsing, cart management, and secure checkout to support local farm-to-table distribution.

Tools:
VsCode, XAMPP

UI Glamping Pasisir Panjang Web.

This Project Using **HTML, CSS, JavaScript, and Bootstrap** for building an elegant, responsive, and easy-to-navigate user interface.

UI Describe:

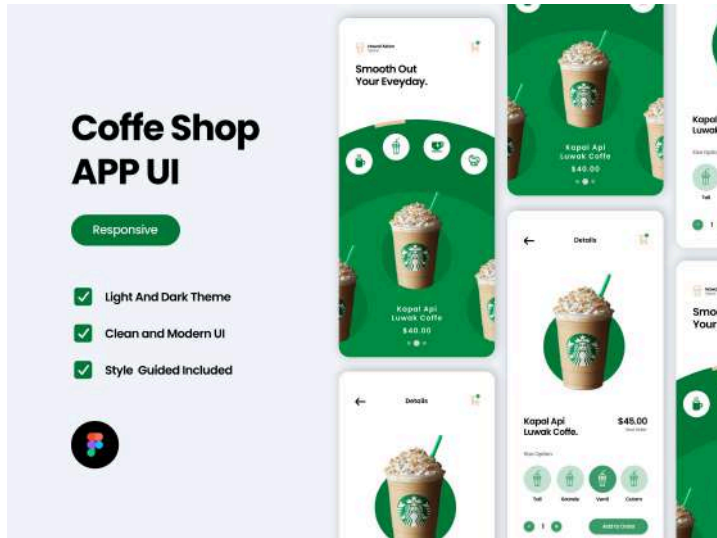

A stylish and user-friendly website for booking glamping villas at Pasisir Panjang, offering stunning visuals, easy reservation features, and detailed accommodation information.

Tools:
VsCode, Figma

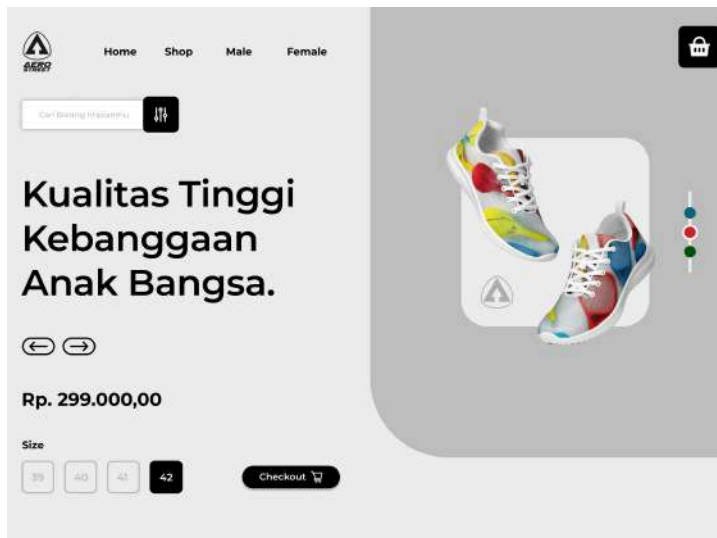

MY WORK

Personal Projects

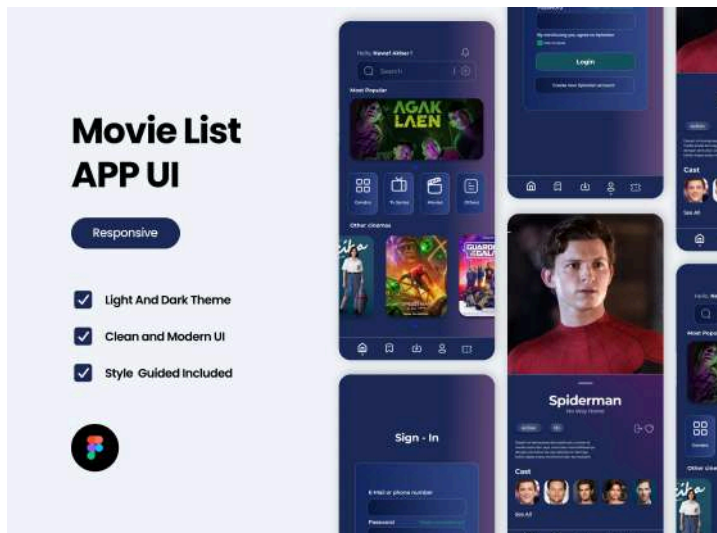

Coffe Shop App User Interface.

A modern and intuitive user interface design for a coffee shop mobile application, focused on a smooth ordering experience, elegant visuals, and user-friendly navigation.

E-Commerce Aero Street UI.

A sleek and dynamic e-commerce UI concept tailored for Aero Street, combining fashion-forward design elements with seamless shopping features for a stylish online retail experience.

Movie List App User Interface.

A sleek and immersive user interface for a movie streaming app, offering intuitive navigation, personalized recommendations, and a cinematic user experience.

MY WORK

Design Projects

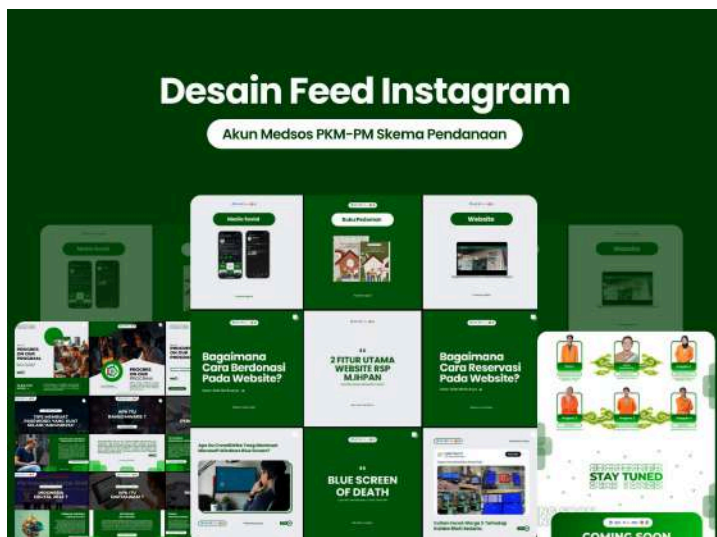

Design Feed Instagram.

A clean and engaging Instagram feed design for LKKMTD, combining bold visuals and informative content to capture student attention and promote organizational identity.

Design Feed Instagram.

A vibrant and well-structured Instagram feed layout for PKKMB, aimed at welcoming new students through creative posts, event highlights, and essential information.

Design Feed Instagram.

A clean and engaging Instagram feed design for PKM PM, combining bold visuals and informative content to capture Activity and promote our project.

Thank You.
